The Fellowship Committee

Pakistan society of internal medicine

Subject: Application for Fellowship of the Pakistan society of internal medicine

Dear Fellowship Committee,

I am honored to submit my application for Fellowship of the Pakistan society of internal medicine.

With a deep commitment to acute and intensive care medicine, medical education, and healthcare management, I believe my professional journey aligns with the high standards upheld by the College.

After graduating as the Ever Best Graduate from Allama Iqbal Medical College, I pursued MRCP (UK) and MRCP (SCE) in Acute Medicine, followed by Fellowship of the American College of Physicians (FACP). These credentials, combined with years of clinical, academic, and administrative experience, have allowed me to play a significant role in shaping healthcare delivery in Pakistan.

Currently, I serve as the Medical Director of Farooq Hospitals, leading a network of seven hospitals with a combined capacity of around 2000 beds. As Co-Chairman of Akhtar Saeed Medical and Dental College and Project Director for Akhtar Saeed Medical College, Rawalpindi Campus, I am actively involved in undergraduate and postgraduate

medical education, curriculum development, and research. As a Consultant in Acute and Intensive Care Medicine, I am dedicated to improving critical care services, developing ICU protocols, and training the next generation of healthcare professionals.

Beyond clinical practice, I have made significant contributions to healthcare innovation and surgical advancements:

I have successfully led the establishment of renal and liver transplant programs in multiple hospitals, securing approvals from Punjab Human Organ Transplant Authority (PHOTA) and expanding access to life-saving procedures.

Under my leadership, we have introduced the Toumai 5G Surgical Robotic System, the first of its kind in Pakistan, marking a transformative step in minimally invasive surgery. I have spearheaded the training of surgeons in robotic techniques, ensuring precision, reduced complications, and enhanced patient outcomes.

Additionally, my research contributions in critical care medicine and healthcare systems development include original research papers, case reports, and leadership roles in scientific conferences. My commitment extends to healthcare expansion projects in underserved regions, ensuring access to high-quality, evidence-based medical care.

Pakistan society of internal medicine stands as a beacon of clinical excellence, professional development, and regional healthcare leadership. I am eager to contribute my expertise in acute care, transplant medicine and medical education while engaging with the esteemed network of Fellows.

I sincerely appreciate your consideration of my application. Please find my CV attached for your review. I look forward to the opportunity to contribute to the College's mission and uphold its values in my clinical and academic pursuits.

Best regards,

Dr. Omair Farooq

MBBS (Gold Medalist), MRCP (UK), FACP (USA), MRCPedin, MRCPGlasg, MRCP SCE UK (Acute Medicine), CHPE (UOL)

Member, American College of Chest Physicians
